

Verwol aluminium framed sliding doors

Verwol aluminium framed sliding doors product sheet

The Verwol aluminium framed double sliding doors have a slim and contemporary appearance and are suitable in any office location. The doors have great sound insulation features and are available with hinges, pivots and sliders.

Our aluminium framed doors are manufactured and delivered with the Cradle to Cradle (C2C) Silver certificate. C2C is now officially marked as the highest standard when it comes down to sustainability in the US and Europe.

Track colors

The Slimline head- and base tracks are available in black (RAL 7021), white (RAL 9010) and grey (RAL 7035).
