

Verwol Slimline Clearvision Single

Verwol Slimline Clearvision Single product sheet

The Verwol Slimline Clearvision Single™ is a glazed architectural wall with great sound insulation features. Perfectly suitable for offices where speech privacy and quiet areas are desirable.

The Slimline Clearvision Single is manufactured and delivered with the Cradle to Cradle (C2C) Silver certificate. C2C is now officially marked as the highest standard when it comes down to sustainability in the US and Europe

Track colors

The Slimline head- and base tracks are available in black (RAL 7021), white (RAL 9010) and grey (RAL 7035).
